Computer Numerically Controlled Machine Tool Programmer (CNC Programmer) at Southern Precision Tooling LLC

The position will perform CNC Programmer duties in Asheboro, North Carolina. Set up and operate CNC machines. Load and install tools/components, set offsets, mount fixtures to equipment. Write and store machining programs using BobCad/Cam V34 Software. Analyze job orders, drawings, blueprints, and data to calculate correct part dimension and set up requirements for machines, tool selection, machine speed, and feed rate. Select appropriate program equipment. Program equipment to perform production tasks. Provide technical expertise and support to production floor. Provide process documentation including set up sheets and in process inspection requirements to guide machine's controller. Investigate problems and process affecting quality assurance. Recommend improvements to manufacturing process to improve performance, increase reliability and decrease cost. Ensure product conformity to specifications and accuracy of fabrications. Work closely with supervisor, machine tool suppliers and other customers to implement new products and processes and to resolve quality and delivery issues. Design new fixtures to support manufacturing components as necessary. Create diagrams or blueprints for workpieces or products as necessary. Regularly meet with the Supervisor to obtain input and feedback. Requires: Associate degree in applied science with coursework in computer integrated machining or related or AAS in related field or foreign degree equivalent or foreign degree equivalent in related field; 24 months experience as CNC Programmer, CAD CAM Programmer, CNC Machinist or any related technical or mechanical occupation. Salary from \$72,904 plus employee benefit plan. Send resumes to Randall Brady at 1662 Iron Mountain Road Asheboro NC 27205 or via email at [rbrady@southern-precision.com](mailto:rbrady@southern-precision.com). AN EQUAL OPPORTUNITY EMPLOYER
